# Reshma Suresh

UX Designer | AI Product Designer | Empowering Businesses with User-Driven Design & Next-Gen AI Approaches  
Dubai, United Arab Emirates

## Summary

Hey! I'm Reshma Suresh.... Now exploring my design journey in the UAE. I've been working as a UX/UI Designer for the past years, and one thing has always guided me: curiosity. It pushes me to ask questions, understand people, and dig deeper into how things truly work. This passion naturally pulled me toward UX, where every decision starts with people and ends with purpose. I'm excited to grow, learn, collaborate, and share ideas with others who love design as much as I do. Feel free to say hi, I'm always happy to connect!

## Experience

UX Gym by UX Anudeep

UX Community Member

November 2025 - Present (9 months)

Bengaluru, Karnataka, India

Exploring UX beyond screens - Ambiguity to clarity

UX Designer/UX Blaze

Product Designer

November 2025 - Present (9 months)

- Framed user hypotheses, task flows, and usability tests to resolve ambiguous product problems.
- Streamlined complex international transaction and checkout flows into intuitive visual layouts.
- Earned the Execution Excellence Award (2025) from mentor Anudeep Ayyagari (ex-Amazon).
- Embedded AI tools into the design process to rapidly iterate layouts and visual styles.

Protectol Health

6 months

UX/UI Designer

December 2024 - May 2025 (6 months)

United Arab Emirates

## User Interface Designer

December 2024 - May 2025 (6 months)

- Partnered closely with product managers, marketing directors, and frontend engineers to translate user needs into clean, considered wireframes, high-fidelity prototypes, and design specs.
- Analyzed live website behavior analytics and user feedback data to run quick iterative design sprints, drastically reducing interface ambiguity across responsive device breakpoints.
- Maintained and enforced the company's central digital design system, regularly documenting UI decisions to ensure strict cross-platform consistency and smooth developer handoffs.

## Brand Cast Solutions

UI / Web Designer

January 2024 - December 2024 (1 year)

Dubai, United Arab Emirates

1. Created user-friendly interfaces for websites and mobile applications, adhering to brand guidelines.
2. Developed user research, wireframes and prototypes to communicate design ideas.
3. Designed and optimized seamless user flows and iterated designs based on feedback, user testing, and data insights.
4. Handled social media post and other graphics work

## Extreme Media Trivandrum

Web Designer / Graphic Designer

February 2022 - November 2023 (1 year 10 months)

Specialize in crafting reusable UI components and converting designs into HTML, CSS, and JavaScript seamlessly. Developed low-fidelity wireframes and high-fidelity prototypes. Conducted user research to identify pain points and develop solutions. Designed and managed websites using WordPress, including backend database and server integration. I have highlighted few examples.

## Nyeste Venture technologies

Junior Web Designer

February 2021 - February 2022 (1 year 1 month)

Kerala, India

Involved in the entire UX process and developed wireframes and prototypes. Conducted user research and created intuitive wireframes for digital products.

Designed banners, illustrations, logos, and graphics for websites and multiple clients.
